

MODELLO

Burnaby | British Columbia

THE CHALLENGE

Modello's upscale appearance starts at the main entrance, where a porte-cochere provides a grand profile that is also a practical response to West Coast weather.

- 4 level podium, 37 floors residential
- 170 suites, 1-3 bedrooms, upper level penthouse
- 4 -6 suites per floor

THE SOLUTION

State of the art geothermal heating and cooling provides the perfect temperature all year round with individual thermal metering of each home's heating and cooling for utility cost control. City Multi geothermal water source variable flow refrigerant heat recovery system was the perfect solution.
