

VICTORIA COMMONS

Kitchener | Ontario

THE CHALLENGE

Victoria Commons is a 4 floor urban center in Kitchener that offers upscale rental suites. A requirement of the project was a high end geothermal solution with a competitive installed price.

THE SOLUTION

City Multi was chosen because it was an easy design solution equivalent to 4 pipe (575 V condensers). There are no bulk heads or large mechanical equipment and proved to be the perfect 21st century solution. Outdoor units include: 18 x PQRY-P72 and 18 x PQRY-P96. Indoor units include: 150 x PEFY-P18 and 30 x PEFY-P30. Controls were AE-200 and PAC-SE51CRA.
