# Navien Premium Efficiency condensing tankless water heaters

We make it easy to go tankless

Navien makes it  
easy to go  
**tankless**

**1** with the  
number one  
condensing  
tankless  
water heater  
in North America

**NPE-A2 Advanced**  
condensing tankless  
water heaters

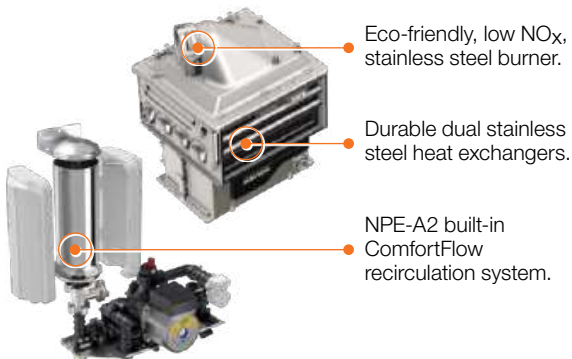

**NPE-S2 Standard**  
condensing tankless  
water heaters

### **NPE-2 series are the most innovative condensing tankless water heaters on the market**

- NPE-A2 ComfortFlow® built-in recirculation system can reheat water in supply lines with recirc loop.
- Durable dual corrosion resistant stainless steel heat exchangers and burner are less corrosive than copper.\*
- Ultra efficiency for lower energy bills and exhaust emissions.
- Strong residential warranty and gentle on the planet.
- Available in natural gas or LP gas and high altitude.
- Compact, stylish, wall-hung design — up to 80% smaller than traditional tank water heaters.

\*Based on corrosion/erosion testing.

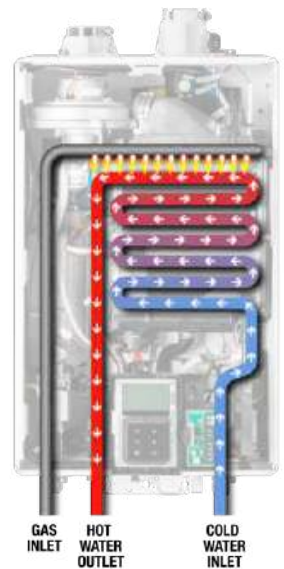

Eco-friendly, low NO<sub>x</sub>, stainless steel burner.

Durable dual stainless steel heat exchangers.

NPE-A2 built-in ComfortFlow recirculation system.

### **How Navien NPE-2 series tankless water heaters work**

Navien premium condensing tankless unit heats water directly without using a storage tank. Cold water travels into unit when the hot water faucet is turned on. The gas burner in the dual heat exchanger heats the water which delivers an endless supply of hot water wherever it's needed.

Navien proven  
**practical**  
 luxury...  
 the comfort of  
**endless**  
 hot water plus  
 energy and  
 space savings

**Endless hot water  
 only when you want it**

Navien tankless water heaters deliver a continuous flow of hot water for as long as you need it. There's no waiting for a storage tank to warm up.

**Longer life, strong warranties**

Navien was first to offer dual stainless steel heat exchangers, which resist corrosion better than copper. Navien's advanced technology and superior craftsmanship assure that your tankless water heater will provide years of trouble-free service with a longer life expectancy than a standard tank water heater. For added peace of mind, we offer one of the industry's strongest warranties.

Application		Labor	Parts	Heat exchanger
Residential	Standard or controlled recirculation	1 year	5 years	15 years
	Uncontrolled recirculation	1 year	3 years	5 years
Commercial or Combi*	Standard or controlled recirculation	1 year	5 years	8 years
	Uncontrolled recirculation	1 year	3 years	3 years

\*Combi refers to a combination potable water and space heating application. Water heaters cannot be used in space heating only applications.

For complete details please refer to the full warranty at [Navieninc.com](http://Navieninc.com).

## Lower energy bills, easier on the planet

Navien condensing stainless steel heat exchangers recover extra heat that would be lost in non-condensing water heaters. The result is a reduction in energy consumption, lower CO<sub>2</sub> emissions and low exhaust temperatures allowing the use of less expensive PVC venting.

## Credits and rebates

There are a variety of energy efficiency credits and rebates available.

**lifestyles**

 **NAVIENT**

We make it easy to go tankless

# Bulky tanks are history...Navien high efficiency **compact** tankless is the **future**

## Traditional tanks

- Tanks run out of hot water during heavy demand.
- A standard 50 gallon tank may take up to 16 square feet of floor space.
- Even when hot water is not required, the tank is being heated.
- Tanks are up to 30% less efficient than tankless.
- 6-9 year warranty and an expected lifespan of 10-15 years.

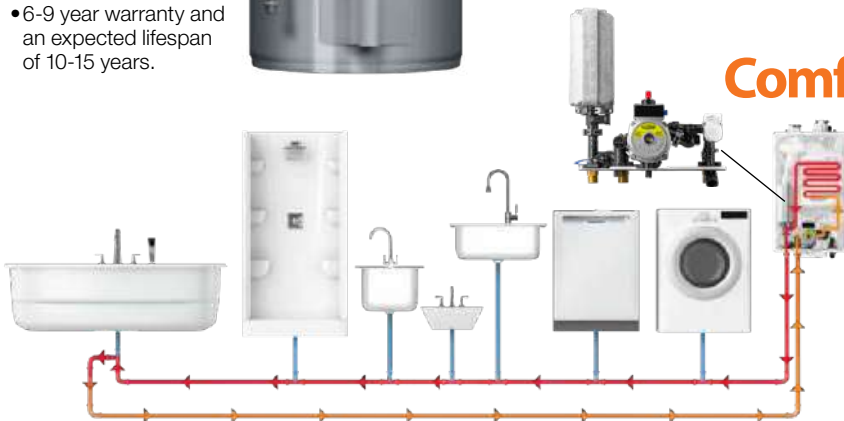

## Navien tankless

- Endless hot water when you want it.
- Energy Star certified up to 0.96 UEF efficiency.
- Compact space saving design.
- Lower energy bills, longer life.
- 15 year warranty dual stainless steel heat exchangers.

## ComfortFlow<sup>®</sup>

Built-in recirculation system on NPE-A2 which includes buffer tank and recirculation pump. The system heats water in supply lines via recirculation loop.

We make it easy to go tankless

# More Navien advantages

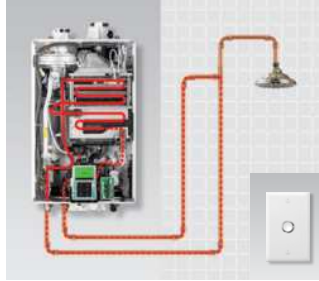

## NaviLink®

Optional Wi-Fi  
remote control system

## HotButton®

On-demand recirculation  
option with built-in controller

## PeakFlow® E

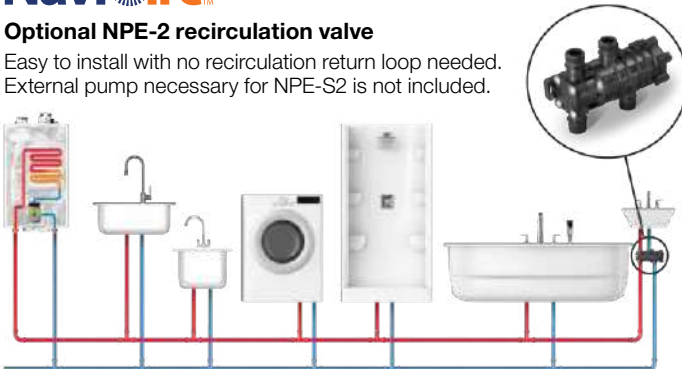

Environmentally friendly  
anti-scale system accessory

## Naviirc™

Optional NPE-2 recirculation valve

Easy to install with no recirculation return loop needed.  
External pump necessary for NPE-S2 is not included.

Enhance your home comfort  
with Navien's high efficiency  
water heaters... the ultimate  
endless hot water solution.
